From tube manufacturing to the finished tubing

The Tube trade fair in Düsseldorf is seen as the industry's central platform for intense exchange of perspectives and productive technology transfers. Particularly also in the segment facing the greatest challenges and opportunities in the field of energy and environmental engineering: the market for plastic tubing. That's why we're providing visitors with an exclusive special place to meet in 2024: the Plastic Tubes & Pipes Area.

**Plastic Tubes
& Pipes Area
Hall 1**

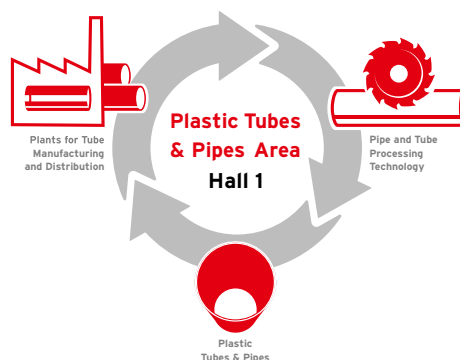

Meet innovation and market leaders – at the Plastic Tubes & Pipes Area

Take advantage of our exclusive special area to learn about current innovations and find new business leads. Talk face-to-face with international manufacturers, distributors and planners operating in the fields of plastic tubing and plastic. You won't find a higher concentration of plastics expertise anywhere else in the world.

Plastics along the added value chain

Due to their extreme durability, virtually unlimited applications and variability, over the last 75 years plastic tubes have become a fundamental part of our infrastructure: Be it in gas- and drinking-water supplies, heating and sanitary systems or the chemical, pharmaceutical and environmental engineering sectors, in the fields of agriculture, geochemistry or the automotive industry: Plastic tubing is found everywhere today.

Visit our special exclusive area for intense exchange of perspectives and productive technology transfers in the fields of plastics and plastic tubing. Also with a view to the challenges and opportunities that the market is facing with regard to energy and environmental engineering.

Decision-makers are at Tube – the world's No. 1

Why don't you, too, join in the highest-level meetings for new impulses, networking, professional small-talk and big business!
